package

Release 0.1

Inga Ulusoy

Mar 09, 2022

CONTENTS:

1 package **1**
1.1 transform module 1

2 Indices and tables **3**

Python Module Index **5**

Index **7**

CHAPTER ONE

PACKAGE

1.1 transform module

`transform.area_circ(r_in)`

Calculates the area of a circle with given radius.

Input The radius of the circle (float, >=0).

Returns The area of the circle (float).

CHAPTER

TWO

INDICES AND TABLES

- genindex
- modindex
- search

PYTHON MODULE INDEX

t

transform, 1

INDEX

A

`area_circ()` (*in module transform*), 1

M

`module`
    `transform`, 1

T

`transform`
    `module`, 1
